

SKYFALL VINEYARD was named for car-sized boulders scattered among the vines appearing to have fallen from the sky. These massive glacial rocks were left in the wake of the Missoula floods that cut the Columbia River. Volcanic ash and sandy loam soils left behind by the floods, along with near perfect growing conditions, create complex and well balanced wines

SKYFALL PINOT GRIS

Pale straw color, with aromas of mango, citrus blossom and banana. Tropical fruit, tangerine, mango and grapefruit unfold on the palate.
