HOW WE MAKE IT

[yellow tail] Sangria is made with grapes sourced from the highest quality vineyards. Once the grapes are crushed and stems removed, they are fermented on skins. Temperature controlled fermentation ensures maximum varietal flavor, color and tannin extraction. Winemakers then carefully blend wine and flavors to procure a finished and polished wine. The wine is bottled at the winery in Yenda.

AROMA

[yellow tail] Sangria displays perfumed aromas with intense mandarin, citrus and orange peel.

FLAVOR

The blend is the complete package! A full flavor mix of citrus partnered with notes of red ripe fruit.

ENJOY

[yellow tail] Sangria is ready to serve chilled, straight from the bottle. For a fruity twist, try served in a jug with loads of ice, topped with diced lemon and orange. For the more adventurous, try adding a splash of [yellow tail] Bubbles!
