WINEMAKING PHILOSOPHY
Josh Cellars is a negociant brand, so we don’t own a winery or any vineyards, much like some of the world’s greatest chateaux in Bordeaux & Burgundy. We do, however, work with California’s best growers to build a superior wine blend. Our winemaker spent over a decade making sparkling wine at one of the world’s largest and most prestigious champagne houses, where blending distinct lots is essential to making great wine. Those experiences make him uniquely qualified to source and assemble wine blends of great character and complexity, in the signature Josh Cellars style: fruit-forward and rich, with approachable tannins and a long finish.

PROFILE
Bright aromas of lemon, lime and pineapple dominate, giving way to scents of white flower, peach and tropical melon. The palate shows clean fruit flavors of lime zest and peach, backed by good acidity and a crisp, refreshing finish.

SUGGESTED FOOD PAIRINGS
Maries well with nearly any light, savory food. Try especially with sauteed trout, goat cheese, or seafood paella.
